

Modular Interior Structural Enclosures to tolerate and exceed building code standards.

- Uniform Building Code Standards, UBC 97

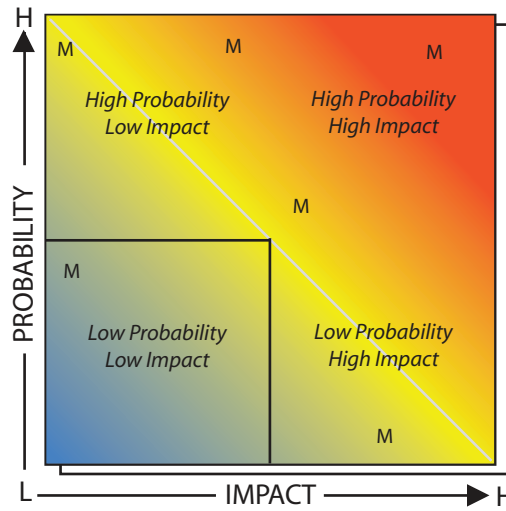

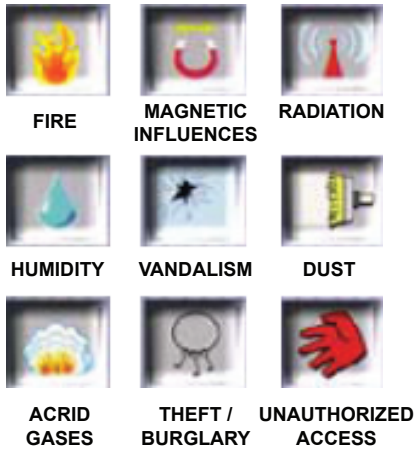

### Modular iBunker

*"I am responsible for the financial security of 40,000 families. If my facility goes down data on the 40,000 mortgages that we own is entirely at risk."*

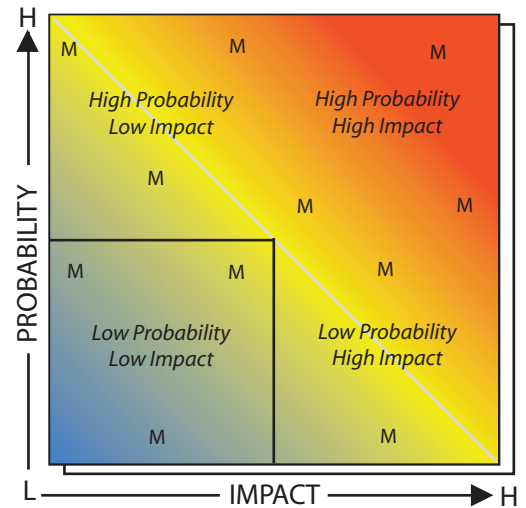

-CIO, Financial Institution in the North East, USA

Proactive Protection (Stop the incident from becoming an Event) Vs. Reactive Contingency and Disaster Recovery Planning.

### BEFORE iFORTRESS

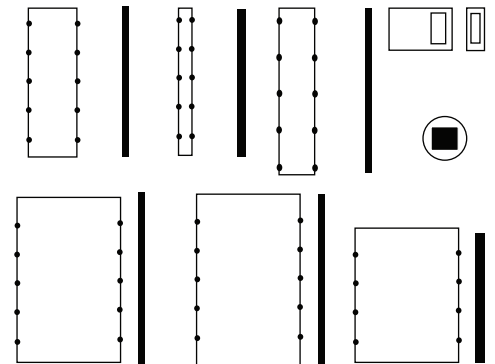

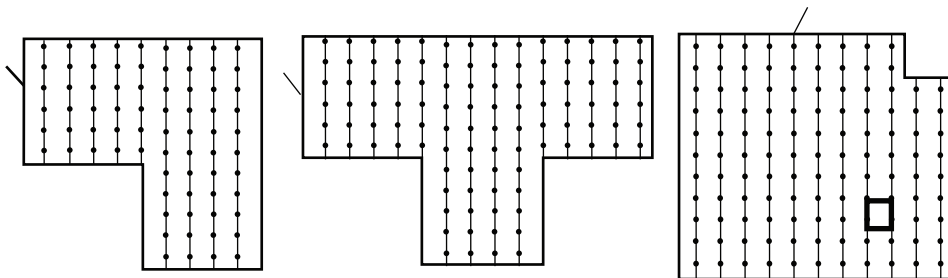

### M = RISK MITIGATION

Structural security measures provided by Future Tech mitigate the risks that cause over 50% of all mission critical failures.

## Introducing The iFortress iGuard Armor Panel™

*A single structural platform that can be adapted to provide exceptional security against a wide array of threats ranging from fire to ballistic hazards.*

### Modular Panels

Independent of Building Architecture – Not a capital improvement – ask your Integrator for a competitive term lease.

**Relocate - Reconfigure - Decommission**
