

AWARD-WINNING IT SOLUTIONS PROVIDER

Future Tech Helps Large New York School District Reduce Costs and Minimize Downtime

- **Future Tech's Managed Print Services (MPS) program delivers key benefits**
- **Supply costs cut by 54% by switching to laser printer technology**
- **Single-payment billing systems dramatically reduces administrative costs**

HOLBROOK, NY Through its Managed Print Services (MPS) program, Future Tech Enterprise, Inc. has helped one of New York state's largest school districts to substantially reduce costs and minimize downtime. Since implementing Future Tech's MPS program in 2011, the school district, which supports more than 19,000 students from K-to-12, has generated significant benefits, including:

- A 54% reduction in supply costs achieved by upgrading to laser print technology;
- Nearly 45% savings on equipment by leveraging Future Tech's elite partner status with key manufacturers;
- A 70% cost reduction from consolidating payment plans across units with Future Tech's single-bill system; and
- A 27% reduction in auto replenishment toner costs

Key components of Future Tech's MPS program include:

- Seamless integration between devices - printers, desktops, laptops, mobile;
- Comprehensive evaluations and audits to determine best customized solutions;
- Access to Future Tech support specialists and leading technologies, such as HP Jet Fusion 3D Print systems;
- Enhanced control of output management – yielding lower costs, less waste, improved security; and
- Simple administrative processes to better manage billing, usage tracking, evaluating TCO

An award-winning IT solutions provider based in Holbrook, NY, Future Tech is a partner of choice for leading companies in the aerospace, defense, education, financial, healthcare and manufacturing sectors.
